

## ENVIRONMENTAL COMPLIANCE SERVICES

Many legal and financial concerns create a social awareness regarding wellness and our environment. Public demand for a clean environment and safe workplace manifests the need for environmental consulting services that maintain a realistic balance between business operations and environmental stewardship. Sentinel Safety Group offers Environmental Services intended to be used for environmental consulting, multi-media regulatory compliance and permitting, remediation and reclamation.

### STAFF QUALIFICATIONS

Our staff is comprised of degreed and registered Environmental Scientists, Certified Industrial Hygienists, & Safety Professionals.

Each has received extensive training in the relevant areas pertaining to these types of investigations.
